CONTENTS

Number 1

J. A. PRESCOTT. The Early History of the Use of the Term Laterite . . 1

P. H. NYE. Some Soil-forming Processes in the Humid Tropics. I. A Field Study of a Catena in the West African Forest 7

S. A. WILDE, G. K. VOIGT, *and* R. S. PIERCE. The Relationship of Soils and Forest Growth in the Algoma District of Ontario, Canada . . . 22

C. BLOOMFIELD. A Study of Podzolization. III. The Mobilization of Iron and Aluminium by Rimu (*Dacrydium cupressinum*) 39

C. BLOOMFIELD. A Study of Podzolization. IV. The Mobilization of Iron and Aluminium by Picked and Fallen Larch Needles 46

C. BLOOMFIELD. A Study of Podzolization. V. The Mobilization of Iron and Aluminium by Aspen and Ash Leaves 50

A. J. LOW. The Study of Soil Structure in the Field and the Laboratory 57

D. CRONEY *and* J. D. COLEMAN. Soil Structure in relation to Soil Suction (pF) 75

R. SCOTT RUSSELL, J. B. RICKSON, *and* S. N. ADAMS. Isotopic Equilibria between Phosphates in Soil, and their Significance in the Assessment of Fertility by Tracer Methods 85

A. REIFENBERG *and* S. J. BUCKWOLD. The Release of Silica from Soils by the Orthophosphate Anion 106

P. W. ARNOLD. Losses of Nitrous Oxide from Soil 116

S. M. BROMFIELD. The Reduction of Iron Oxide by Bacteria 129

A. KARIM. A Mineralogical Study of the Colloid Fractions of some Great Soil Groups, with particular reference to Illites 140

G. BROWN. Soil Morphology and Mineralogy. A Qualitative Study of some Gleyed Soils from North-West England 145

J. R. BUTLER. Trace-element Distribution in some Lancashire Soils . . 156

R. C. MACKENZIE. Free Iron-oxide Removal from Soils 167

Number 2

B. A. DICKSON *and* R. L. CROCKER. A Chronosequence of Soils and Vegetation near Mount Shasta, California. III. Some Properties of the Mineral Soils 173

H. C. MOSS. Soil Classification in Saskatchewan, Canada 192

F. STEENBJERG. Weathering of Minerals as indicated by Plants . . . 205

J. M. BREMNER. A Review of Recent Work on Soil Organic Matter. II. . 214

W. W. EMERSON. The Determination of the Stability of Soil Crumbs . 233

E. R. FOUNTAINE. Investigations into the Mechanism of Soil Adhesion . 251

G. RODRIGUES. Fixed Ammonia in Tropical Soils 264

R. W. SIMONSON. Morphology and Classification of the Regur Soils of India 275

S. SINGH. A Study of the Black Cotton Soils with special reference to their Coloration 289

R. R. AGARWAL *and* J. S. P. YADAV. Saline and Alkali Soils of the Indian Gangetic Alluvium in Uttar Pradesh 300
